To Whom It May Concern:

I am pleased to write this letter on behalf of Timothy P. Ferguson, President of TPF Nursing Registry, Inc. My association with staff provided by TPF Nursing Registry goes back to the late 1980s when I was responsible for several patient care areas at Saint Vincent Hospital. Even starting up, the personnel from TPF have always been responsible and professional in every way. They were a respected part of the wonderful staff of Saint Vincent Hospital from then until April 30, 2010 when the hospital closed.

Personally, during the early 2000's, I suddenly lost my administrative position. I decided to return to nursing and I registered for a six-week Nurse Refresher Course at Molloy College in Rockville Centre, NY. Upon completion of the course, I applied to work through the TPF agency. During the sign-on process and orientation as a temporary nurse, I realized just how important it was for Tim and workers to keep their standards high and consistent with excellence in patient care. I was always assigned to areas where I had earlier experience and I was set on a course to succeed in my work.

In recent years, Tim has called me occasionally to work, but my new position at the System Office for Catholic Health East, located in Pennsylvania, has made that impossible. I highly recommend Tim and his staff for their expertise and diligence in providing the best patient care professionals and collaborators.

I will be happy to speak with you further if I can be more helpful.

Sincerely,

Sister Karen A. Helfenstein, SC

Sister Karen A. Helfenstein, SC, RN, FACHE
